EXAMINER'S AMENDMENT

1. -- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Julian H. Cohen on 08/25/2004.

The application has been amended as follows: in claim 41, line 15, delete "material." and insert -- material--.

2. Claims 3, 6-13, 16-24 and 28-34 have joint to the allowed claims 41 and 25.

3. ✓ Claims 2, 4-5, 14-15, 25-27 and 35-41 are allowed.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest, in the claimed combination, a method of embedding at least one flexible conductive track foil in a plastic material using steps of providing at least one flexible conductive track foil which by itself is not adapted for being embedded in plastic material by injection molding, separating the track foil with a stiffening element, placing the track foil supported by the stiffening element in an injection mold and injection molding plastics material about the track foil and stiffening element. Buscella in view of Aflenzer fail to show the provision of a stiffening element being used to

support a track foil during an injection molding operation. Newly cited Michel et al. [US 6,700,074] fails to show the use of a separate stiffening element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
